The Interim Update

[Download this Page\(/page/print/pdf/node/1808\)](#)

The *Interim Update* is a CERF reporting requirement that comes at the chronological midpoint of the implementation of all projects within a CERF allocation, between the start-date of the earliest-starting project, and the end-date of the latest-ending project.

The Country Focal Point reviews project-level updates from all the Agencies, which are compiled as an allocation-level report, which is then forwarded to CERF Secretariat for review.

Activation of the Interim Update

The CERF Program Officer receives an automated notification two days prior to the four-week submission due date, after which they can optionally open the report to the Country Focal Point two days prior to the automated date.

For guidance on *Interim Update* reporting in the OneGMS, you may navigate using the sub-menu links, for the *Interim Update* Report, in the menu to the left.

CBPF GRANT MANAGEMENT SYSTEM (GMS)

For optimal navigation of this OneGMS *Help Portal*, please click on the above button corresponding to the desired user-group. Menus and instructional guidance may vary by user-group, with some material more tailored to the selected user-group's access within, and use of the OneGMS platform.

You may log into the OneGMS at <https://onegms.unocha.org>(<https://onegms.unocha.org/>).
