## CBPF GRANT MANAGEMENT SYSTEM (GMS)

After clicking on the *Project Revision* link from their homepage, Agency Focal Points will land on the multi-tabbed *Project Revision* template.

Tabs which correspond to the *Revision Request* will be to the left, and tabs which correspond to the *Project Revision*, will appear to the right.

The new tabs will be marked with a red line. These pages may require Agency Focal Point revision action, or may require Agency Focal Points to review, and confirm the information.

Clicking on a tab will open the page.

When all necessary information is entered on a page, or the information on the page is reviewed and confirmed, the page may be saved.

Upon saving, the red line will no longer appear on the tab, and the tab will be clear for submission. All red lines on tabs must be cleared for a *Project Revision* to be valid for submission.

Within any page, any field indicated with a red asterisk requires the Agency Focal Point to have responded to that field before the page will clear for submission.

CBPF GRANT MANAGEMENT SYSTEM (GMS)

Throughout the revision process, Agency Focal Points, Country Focal Points, and CERF Secretariat reviewers can compare the original version of the project with the proposed modifications by clicking on the button **[Show Current Version]**.

This feature ensures a clear, simultaneous view of the proposed changes with the existing project terms as they proceed with the *Project Revision*.

For narrative fields, when the button is clicked, the existing text will appear above the new text fields.

For some pages like the *Overview* page, a popup will appear with the text of the original *Overview* page.

## CBPF GRANT MANAGEMENT SYSTEM (GMS)

You may revise the information from this tab. Please note that the revised data will only overwrite the current project data on the GMS after the revision is approved by OCHA. [Need Help?](#)

### 1. Revision of the Overview Tab

The *Overview* tab allows Agency Focal Points to request a number of changes, including extending a project’s duration (as is the case with *No Cost Extensions*), amending the *Project Title*, amending the *Project Summary*, linking the project to an HRP, amending the total funds required for the Organization’s response in the Funding Summary, and adding or deleting Agency Focal Points.

The sections are numbered, and the fields for revision are further broken down.

### Fields for revision:

- **1.3 External/Organization's Project Code (if any)** - The Agency Focal Point may opt to revise the existing Agency project code.
- **1.5 Project Title** - The Agency Focal Point may opt to revise the existing Agency project title
- **1.6 Project Summary** - The Agency Focal Point may opt to revise the existing *Project Summary*
- **1.7 Actual Start date/ Actual End Date (NCE)** - By clicking in the text box marked *Requested New completion date*, a popup calendar will appear, allowing the Agency Focal Point to select a new date for project completion. When the date is chosen, the new requested date displays below the current approved project completion date.
- **1.8. Project Duration** - The revised duration will automatically populate here as the *Updated Project Duration*, below the current approved duration to align with the requested new completion date in 1.7.
- **1.10 HRP Project Code(s)** - The Agency Focal Point may click the button [+ Link HRP Project] to link a Humanitarian Response Plan.

2.2 Funds Received for Organization's Response ⓘ	0.00 (0.00%)
2.3 Total Funds Requested from CERF for this Proposal	1,070,000.00 (35.67%)

**Fields for revision:**

- **2.1 Total Funds Required for Organization's Response \*** - This field, which expresses the total funding required for Agency's response, may be amended by clicking in the text field and entering the new amount required for project response.  
This new amount must be greater than the sum of the two other fields.
- **2.2 Funds Received for the Organization's Response** – The amount expressed in this field may be amended to reflect new funding received by the Agency towards the Agency's response from non-CERF funding.
- **2.3 Total Funds Requested from CERF for this Proposal** - This amount may not be amended in this sub-section, but changes can be made on the Budget tab that will reflect a new amount in this field.

**3. Organization Focal Points**

**3.1 Organization Focal Point Contact Details \***

Within the sub-section, the Agency Focal Point may delete the current focal point, by clicking on the *delete* icon (🗑️) by the contact email.

## **2. Revision of the Logframe Tab**

When revising the *Logframe*, the Agency Focal Point can perform the following:

## CBPF GRANT MANAGEMENT SYSTEM (GMS)

- Edit the project objective.
- Add a new cluster and HRP objective, but not edit the initial one(s).
- Add and edit new outcomes, outcome indicators, outputs, output indicators and activities.
- Deactivate an outcome, output, indicator and activity.

When new information is added in the *Logframe*, the new key components of the logical framework

**OneGMS Focus: How to deactivate an existing outcome/output/indicator/activity during a project revision**

The system does not authorize Agency Focal Points to delete or edit elements of the existing *Logframe*, however, it is possible to deactivate them by “nullifying” them, indicating that they will not be implemented. If you deactivate an outcome, all the indicators, outputs and activities linked to it will be automatically deactivated. If you deactivate an output, all output indicators and activities will be deactivated.

Deactivating activities or indicators will not impact other data; however, you will not be able to save the tab if there is not at least one outcome, outcome indicator, output, output indicator and activity.

To deactivate any existing part of the *Logframe*, the Agency Focal Point may click on the edit icon (✎) on the row of the component intended for removal.

The relevant logframe popup for the existing component will appear.

In the popup, the Agency Focal Point may checkmark the box *Not Implemented* to not implement the logical framework key component.

A list of consequently impacted sections of the logframe will display as a list.

Deactivated logframe elements will be indicated at the beginning of the row and will be marked as *Not Implemented*.

E.g. Activities that have been deactivated from the *Log Frame* tab will be automatically listed as *Not Implemented* on the *Work Plan* tab.

### 3. Revision of the Work Plan Tab

This tab allows Agency Focal Points to indicate when any activity will be implemented. Every activity should be implemented for at least one month,

CBPF GRANT MANAGEMENT SYSTEM (GMS)

and any project month should have at least one activity implemented in it.

**Please note:** you will not be able to retroactively tick/untick a past month, as it is assumed that the activity has already taken place.

For extensions, months with no activities selected, will display as red.

When at least one activity is added to an additional month, the month will now display as gold.

All months must have some at least one activity to be valid for submission.

For *Project Revisions* where the *Work Plan* tab is marked red on account of being activated by changes in the *Logframe* tab, or to any other revisions which activated the *Work Plan* tab, where no other revisions are being made to the page, the Agency Focal Point should verify that all implemented activities are correctly selected in the appropriate months, and the page may be saved to clear the red line on the tab for submission.

### **4. Revision of the Budget Tab**

There are two *Revision Types* where revision is required on the *Budget* page;

- *budget revisions with a variance above 15% across categories*
- *Revisions without CERF HQ Approval*, specifically the option for *budget revisions* with a variance below 15% across categories.

**Budget Revision Modalities:**

- The maximum variance allowed across budget categories is: 1000%
- The maximum additional amount allowed for this cost extension request is: 0 (0%)

- Budget lines may not be deleted but may be nullified, by reducing the quantity to 0, or if the percentage charged to CERF for the line item is reduced to 0%. Budget lines that are nullified, can be identified by a darker grey shading.
- Newly-added Budget lines can be identified by their green shading.
- The amount of budget variance in a budget category will be indicated in the *Variance* column. The total variance for a budget category appears in the orange field at the bottom of the budget category.
- Agency Focal Points may enter and record comments at the budget line level by clicking on the speech bubble icon (🗨️). These will be recorded at the bottom of the page with a budget line reference for easy reference.

If the desired subgrantee is not found, the Agency Focal Point may enter the subgrantee name in the *Partner Name* field, with the appropriate *Partner Type* selected from the drop-down below it.

## CBPF GRANT MANAGEMENT SYSTEM (GMS)

If the Sub-Partner is not found in the system after the search, a checkmark box will appear, asking the Agency Focal Point to confirm that the Sub-Partner was not found in the system.

At this time the Agency Focal Point may check the box, and click on the hyperlink below the box, to add a new partner to the system.

The hyperlink will open a new browser tab, to the *Sub-Partner Registration* page of the *Partner Information Management* module.

After registering a partner in the system, the newly-registered partner should now be visible to the Agency Focal Point, when clicking the edit icon () to add the Sub-Partner name.

## CBPF GRANT MANAGEMENT SYSTEM (GMS)

For any projects where a sub-implemented activity was checked as *Not Implemented* on the *Logframe* tab, the activity will appear on the *Subgrants* tab with the label *Not Implemented*. The Agency Focal Point must ensure that at least one activity is linked to any subgrantee.

If all activities implemented by a Sub-IP are deactivated, the Agency Focal Point will have to delete the sub-partner by clicking on the delete icon (✖) in the *Action* column, or set the Sub-Partner's budget to 0.

If an Agency Focal Point deletes a sub-partner by mistake, they can edit the Sub-IP's budget to undo the cancellation.
