Monitoring

- Monitoring
- Activation of Monitoring
- Monitoring Module (instances added for IP)
  - Monitoring tab
  - Documents tab (guidance under development)
  - Tracking tab (guidance under development)

Monitoring is an essential part of the internal mechanisms for project management. The Monitoring tool in GMS helps to capture, organize and provide quality information in order to support all stakeholders (particularly HFU and implementing partner) in exercising their tasks and responsibilities with regards to monitoring and reporting.

The Monitoring tool will be displayed in the “timelines”-tab in the GMS. The HFU will activate the monitoring instance, fill in the necessary information, and update the recommended actions. The HFU can then send them to the Implementing Partner or Cluster Coordinator, as necessary. An email alert will be sent to the IP/CC based on the party who receives the task.

Activation of Monitoring

1. On the Timelines tab, scroll down to the Monitoring Timelines section.
Click on the **Add Monitoring** button to add a new row in the table to add the monitoring details.

<table>
<thead>
<tr>
<th>Monitoring Type</th>
<th>Monitoring Name</th>
<th>Due Date</th>
<th>Active Date</th>
<th>Status</th>
<th>Update Detail</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select Monitoring Type</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>[x]</td>
</tr>
<tr>
<td>Field Visit</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Financial Spot Check</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Remote Call</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Web-Based Survey</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Third Party</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Peer Monitoring</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

After providing the required information, click on the **Save Monitoring Timelines** button.

Activation of the Monitoring type can be done by clicking on the **Activate** button for the selected monitoring type. (**Activate** button will only be displayed if the project has been approved) or it will be automatically triggered as per the timeline defined.

**Note**: You can have multiple monitoring types open at the same time and the different types will stay open until the project closes.

2. After a monitoring type has been activated in the GMS system, go to the fund homepage and click on **Monitoring Overview** icon on the **Quick Access** dashboard to open the Monitoring overview screen.
To generate a Monitor Overview, select one or more filters from the filters section.

The filters available are:

- **Select Allocation Year** (drop down box): Lists the years of allocation available in the GMS system for the pooled fund.
- **Select Allocation Type** (drop down box): List of all projects submitted in the GMS system with the allocation type and year for the pooled fund.
- **Select Cluster** (drop down box): List of clusters defined for the pooled fund.
- **Select Organisation Type** (drop down box): List of Organisation Type in the pooled fund (International NGO, National NGO, Other, UN Agency)

Based upon the criteria selected above, click the **Reload Filters** button to load the filtering options below.

- **Project Code** (text box): Search a project by Project Code (Last 3 digits of project code need to be mentioned)
- **Select Organisation** (drop down box): List of organisation names registered for the pooled fund.
- **Select Admin Location 1** (drop down box): Lists the regional locations in the country for which the user is registered for.
- **Select Project Duration** (drop down box): Lists the duration periods set for the projects in the pooled fund. (1 month to 19 months)
Select Monitoring Type (drop down box): Lists the Monitoring types available based on the criteria set above.
Select Monitoring Status (drop down box): Lists the Monitoring statuses available based on the criteria set above.

Then click the Click to filter button to generate the Tasks Overview. To reset the filters, click the Reload Filters button (i.e. Select Allocation Year, Select Allocation Type, Select Cluster, Select Organisation type).

Click the Clear button to reset the entire set of filters. Click on the Back to Results icon to return back to the previously generated Tasks Overview page. (This button will be displayed only if there is a previously generated Tasks Overview page.)

The GMS will display all projects which are active/open for monitoring.

Note: The monitoring instances will no longer be blocked by active project revisions and can now be updated even after the project is closed.

Projects Monitoring

3. Click on the monitoring instance which are showing Project Monitor status as Active to add monitoring information:

</table>

**Note for HHF & JP**: Note that these actions will also appear at the Progress and Final Narrative reporting phases allowing IP to update the check-box and put a remark if they have taken the necessary action.

**Remark**
Ad hoc visit with representatives from NHF donors (Sweden). Mission participants discussed the project implementation progress with the IP and interacted with the affected population and project beneficiaries.

### Comments for Monitoring

**By Date** | **By Status**

Leave Comments: 

No Comments
Fields Description:

- **Start Date** (date dropdown): Select the date on which the monitoring activity has to be started.
- **End Date** (date dropdown): Select the date on which the monitoring activity has to end.
- **Monitoring Round** (dropdown box): Select the applicable monitoring round
- **Monitoring Participants**: Follow the below mentioned steps to add the monitoring participants. Click on the **Add Participant** button to add participants.

**Field Description**:

- **Name** (Textbox): Enter the participant name.
- **Title** (Textbox): Enter the participant title.
- **Organization** (Textbox): Enter the organization name to which the participant belongs to.
- **Email** (Textbox): Enter the email address of the participant.
- **Phone** (Textbox): Enter the contact details of the participant.

Click on the **Save** button to add the participant details. Click on the **Edit** link to modify the participant details or click on the Delete link to remove the participant from the monitoring list.

- **Monitoring Type** (Check box): Select the type of monitoring.
- **Implementation Progress Result** (dropdown box): Select the appropriate implementation progress result.

**Note**: Implementation Progress Result will be used for scoring the Performance Index of the Implementing Partner.

- **List Recommendations/Actions for follow-up**: The Recommendations/Actions shown here will also appear at the Progress and Final Narrative reporting phases, thus allowing the IP to update the check-box and put a remark if they have taken the necessary action.

Click on the **Add Recommendations/Actions** button to add recommendations/Actions.

**Field Description**:

- **Action** (Textbox): Enter the action name.
- **Responsible for taking action** (dropdown box): Select the person responsible for taking appropriate action.
• **Is Action Taken** (Checkbox): Select the checkbox if the action has been taken by the responsible person.

Click on the **Save** button to add the details.

<table>
<thead>
<tr>
<th>#</th>
<th>Action</th>
<th>Responsible for Taking Action</th>
<th>Action Taken? (yes/no)</th>
<th>Remark</th>
<th>Update Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>act1</td>
<td>Humanitarian Financing Unit (HFU)</td>
<td>No</td>
<td></td>
<td>Edit Details</td>
</tr>
</tbody>
</table>

Click on the **Edit** link present at the last column of the “Recommendations/Actions” to update whenever action has been taken:

<table>
<thead>
<tr>
<th>#</th>
<th>Action</th>
<th>Responsible for Taking Action</th>
<th>Action Taken? (yes/no)</th>
<th>Remark</th>
<th>Update Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>act1</td>
<td>Humanitarian Financing Unit (HFU)</td>
<td>Yes</td>
<td>done</td>
<td>Edit Details</td>
</tr>
</tbody>
</table>

Click on the **Delete** link present at the last column of the “Recommendations/Actions” to delete the required Recommendation/Action.

All action points from the monitoring tool will be automatically shown in the Progress and Final Narrative report of the IP.

---

**Note:**

- If the IP ticks the check box as YES, the action point will turn green both in the reporting module and in the monitoring module. If HFUs do not agree on an action indicated as “taken”, they can always send the report back to the IP with comments - but the system will be in sync at any time.
- The monitoring module workflow has been updated in order to remain editable for HFUs. This is necessary as monitoring is an ongoing process and HFUs may need to update the information about eventual actions taken by the IPs at a later time. Once the monitoring instance has been activated, HFUs will not see any workflow buttons anymore - except for the “save”-button. The “save”-button will allow HFUs to edit the monitoring module as actions are addressed or changed. The module remains editable until the project is closed.

After the HFU has activated the monitoring instance, filled in the necessary information, and updated the recommended actions, the HFU can either send them back to the Implementing Partner or Cluster Coordinator, as deemed necessary or activate the monitoring as complete. An email alert will be sent to the IP/CC based on the party who receives the task.

- Click on the **Send to IP for Actions** button to send the monitoring recommendation to Implementing Partner for actions.
- Click on the **Send to CC for Actions** button to send the monitoring recommendation to the Cluster Coordinator for actions.
- Click on the **Monitoring Completed** button to close the monitoring task.

The IP and CC will have access to update the recommended actions only and no other data. Once done, they should send the monitoring instance back to the HFU. Once the information is verified, the HFU can click on **Monitoring Completed** button.

### Comments for Monitoring

- By Date
- By Status

Access to IPs (editable in the Reporting-stage): Action points from the monitoring tool will be automatically shown in the Interim and Final Narrative Report of the IP for updating actions and adding comment.
If there were no actions/recommendations from monitoring, partners view in reporting will be:

<table>
<thead>
<tr>
<th>#</th>
<th>Action</th>
<th>Responsible for Taking Action</th>
<th>Is Action Taken</th>
<th>Remark</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>CARE should conduct screening to further determine current case load.</td>
<td>Agencies/Partners</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Address observed challenges including inadequate community mobilization and linkage between health extension workers, health development arm's and health level structure. Low participation of children admitted at OTP. High default rate among children admitted at OTP &amp; SC. High default rate. Shortage of insecticides, inadequate recording and reporting system. Shortage of equipment in stabilization center and weight monitoring stands in OTP.</td>
<td>Agencies/Partners</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>TSFP - discussion and adequate preparation needs to be made to start and run the TSFP without delay. Especially for hotspot priority areas. CARE has to start this communication with WFP and make all the arrangements to implement the project with good referral linkage between SART and MAM.</td>
<td>Agencies/Partners</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Role distribution for health centers - there was a plan to distribute roto-virus containers for health centers. However, the situation indicated that health centers are equipped with adequate roto-virus. Therefore, CARE are recommended to discuss with the vendors and verify WASH related needs.</td>
<td>Agencies/Partners</td>
<td></td>
