

## Information Management

The Allocations and Contributions data from the CBPF and CERF are analyzed and displayed by private and public platforms affiliated to the Grant Management Systems of CERF and CBPF.

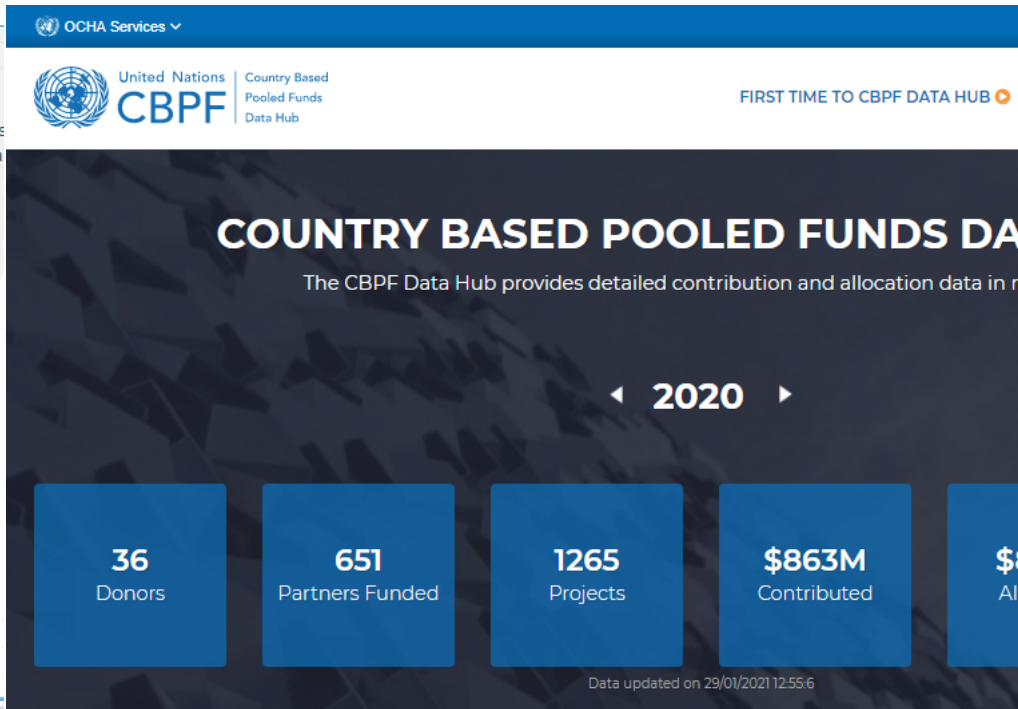

All these information management platforms are managed by the Information Management and Data Analytics Unit of OCHA, which also manages the GMS, and from which GMS Support depends.

If you wish to access guidance on the Pooled Funds Data Hub, the high-level public information management platform of all OCHA funding mechanisms, please click on [Pooled Funds Data Hub] in the menu below.

If you wish to access guidance on the CBPF Data Hub, the public and very detailed information management platform for CBPF data, please click on [CBPF Data Hub] in the menu below.
