The OCHA CBPF Business Intelligence Portal (BI) is a dynamic and intuitive data analysis platform, delivering critical information in real-time on OCHA Country Based Pooled Funds’ Allocations and Donor Contributions, for better decision making.

Intended for all users who wish to analyse and learn more about the CBPF figures and trends, it provides a wide array of interactive visualizations, allowing an easy access to the data.

All OCHA CBPF BI data is live and publicly available for everyone to use, download and share.

“Very useful, very quick access to the data; it helps us make key decisions.”

Donors’ Representative - Pooled Fund Working Group 2019
ENHANCED TRANSPARENCY AND ACCOUNTABILITY

Drawing its data from the OCHA CBPF Grant Management System, the BI delivers in real-time the exact figures on, among others:

- Donor Contributions and CBPF Funding Levels
- CBPF Allocations and Clusters Funded
- Targeted and Reached Affected Persons
- Allocation Flow to NGOs and other Implementing Partners
- CBPF’s Funding for Gender Equality

EYE-FRIENDLY, INTERACTIVE INFOGRAPHICS

All BI infographics include:

- Filter options, allowing users to create on-target, customized visualizations
- Extraction, sharing and downloading options

FROM A COMPLIANCE REQUIREMENT TO A NEEDS-TAILORED, RELIABLE TOOL

OCHA CBPF BI is one of the most transparent representations of the data in the humanitarian sector.

Donors’ Representative - Pooled Fund Working Group 2019

FASTER REPORTING AND ANALYSIS

The BI offers a multi-dimensional level of data analysis which OCHA stakeholders can use for reporting purposes.

Additionally, the data analysis on trends improves visibility on performance and gaps, and facilitates strategic planning.

HIGH ADAPTABLEITY

The BI is continuously updated with new infographics, and quickly adapts to the reporting and analytical needs of OCHA stakeholders, including Management and Donors.

One of the latest additions to the BI is the COVID-19 Allocations map (as presented below), which provides an overview on OCHA’s response to the COVID-19 pandemic.

TOWARDS ONE BI FOR ALL OCHA FUNDING MECHANISMS

OCHA manages two types of Pooled Funds: the Country Based Pooled funds (CBPFs) and the Central Emergency Response Fund (CERF).

While the BI currently provides infographics regarding the CBPFs, work is underway to integrate CERF data to the platform.

The COVID-19 Allocations Map constitutes the first BI infographic bringing together both CBPF and CERF data, making it the first step towards the One BI.
